---

#### **Notice:**

CSS Competitors - There were two errors in the scoring system which have since been corrected and posted:

- Possession Point Race - Division 9 - ORC F - The incorrect wind band was used to calculate corrected times for Division 9. The correct wind band has been applied to Div 9 and this change does impact overall scoring for this race. All other division's corrected times are and were correct.
- All Races (ORC and PHRF) - An incorrect rule was used to score boats DNF and RET. It has been corrected to match SI 13.3. This does not affect top 3 standings in division or overall, but some tiebreakers have changed in mid fleet scores.

[Link to Results.](#)

I apologize for these errors, I know how important getting published scores correct is to you and we will be relaying feedback to ClubSpot to ensure errors like this don't happen again.

New! - ClubSpot has made an update where ORC boat ratings will now reflect the proper coefficient used when clicking on a particular race results, rather than the APH rating. The APH rating will still appear on the overall results and entry list.

Thanks - Jon
