Description

I hereby intend to protest ITA 225819.

During the starting procedures there was a crossing (which I tried to avoid, and which I pointed out to him), I on starboard tack, and ita 225819 on port tack, and a collision ensued. he did not perform any maneuver to avoid me, in fact he ended up colliding with my boat.

The collision had as it caused me damage to the rigging, and damage to the boat (in the gelcoat and fiberglass)

I ask that he be penalized and compensated for the damage caused to my boat.
