**Question No: 04**

**Question For: Race Committee**

**Question:**

In the results are sailors who only completed one lap counted in front of sailors who finished both laps. (For example did SUI 3366 always one lap and I (SUI 2742) did yesterday (race 5-8) always two laps and SUI is still counted in front of me for race 6-8). Will you try to figure out who did one and who did two laps and try to correct the results? Thanks a lot for your efforts.
