Question for Officials

Date: 2024-09-18

Question No: 01

Question For: Protest Committee

Question:

we ask to the jury to be able to add the code0 in the certificate, it was a mistake not having it in the certificate before.

Answer:

The jury has sent your request to the Technical Committee as certificates do not fall under the jurisdiction of the jury. Unfortunately, The Technical Committee cannot change the certificate once the event has started. They understand that not having the Code0 included in the certificate was an unintended error but not one that falls under ORC rule 303.6. Therefore, the certificate cannot be re-issued. Please, note that in accordance with your current certificate, the Code0 shall not be on board.
