

2021 Lanzarote International Regatta

□ Question for Officials

Date: 2021-03-19

Question No: 01

Question For: Race Committee

Question:

We would like to request that all 8 boats that are trying to qualify for Olympic slot be scheduled for equipment inspection, not only 5 boats as published. Disassembly and assembly would take minimum 2 hours which is considerable time and would be fairer to give all teams equal treatment in our opinion. Competitors GRE515, HUN456 and NED505 support our view as well.

Answer:

The question has been forwarded to the Technical Committee for consideration and further action.
