

Sailing Point Easter Regatta Question for Officials

Date: 2025-04-22

Question No: 04

Question For: Race Committee

Question:

Dear Race Committee, unfortunately my sons races were not counted, because you had registered him with a wrong sail number. His sail number was GER 1684, not GER 18130. (We sent you an email with the new sail number on April 10th). Is there any way to find out his results? Best, Inga

Answer:

Dear Inga,

It is very strange, to start finding the sailor two days after the event was finished.

I do not know, how you or your coach passed the registrations without checking the correct sail number on the list. Results on the first day were published and we did not receive any question for this and it was the same for the second day.

We will try to check our finishing lists, but it will take us a while.

Best regards

Bojan
