

2026 Formula Wing European Championships

Question for Officials

Date: 2026-04-03

Question No: 01

Question For: Technical Committee

Question:

I see that the Notice of Race contains class rule changes, especially a limitation to maximum wing size of 7.5m. I do not see an approval of the class and World Sailing for this class rule change. We have prepared for this event for a long time and I expect that our team riders can register their 8.0m wings. Please confirm
