## Question for Officials

**Date:** 2026-06-12

---

**Question No:** 07

**Question For:** Race Committee

**Question:**

During the race I hit a competitor at the gate mark I believe he was on port in the gate as we had to evade another boat coming on port from the top of the course. That boat was yellow I don't know which boat I hit? Can you help identify. We retired from the race

---

**Answer:**

We have not been able to identify which boat was involved in the contact.  
However, the two yellow boats in the fleet are:

JPN2457  
JPN2715

We hope this information helps you identify the boat involved.
