Question for Officials

Date: 2026-06-16

Question No: 18

Question For: Technical Committee

Question:

Good morning to everyone!

S.I. 1.2 section IV: APH or ToT?

In the first sentence APH is indicated as scoring method for ORC class,

In the second sentence ToT is indicated as scoring method for both IRC and ORC classes.

May you clarify which method will be used for ORC class?

Best regards!

Answer:

point 1.2 section IV of the SI is very clear and we report it:

IV) The corrected time will be calculated by applying:

- ORC Classes: corrected time will be calculated using ORC Single Number All Purpose Handicap (APH), Time on Time.
- IRC Classes: corrected time will be calculated using IRC TCC, Time on Time.

The scoring software used will be "ORC Scorer".
