

2021 CORK International Regatta & Sail Canada Youth Championships, Club 420

Question for Officials

Date: 2021-07-27

Question No: 01

Question For: Protest Committee

Question:

[This question has been edited to better reflect the issue involved] Is it required that a personal flotation device be certified by Canadian authorities?

Answer:

No. Under the Equipment Rules of Sailing personal flotation devices are “required to assist the user to float in water.” Local jurisdictions may have additional rules and national certification requirements, but these rules are not rules of the regatta unless included in the Notice of Race or the Sailing Instructions.
