Question No: 03

Question For: Race Committee

Question:

Our fleet is having difficulty with boats from PHRF 3 being on our starting line or right at the committee boat moments before our start. This has been a constant problem this year and was particularly bad last night as there were 3 boats from the PHRF 3 fleet in our start area during the last 45 seconds. One boat was trying to get to the committee boat at 38 seconds to our start signal and the committee boat was heavily favored! We advised them it was our start but they said they said they had to go to the committee boat? This problem is escalating out of control. Our start last night was compromised by 2 boats from PHRF3 and other L28's had issues with the other 2 PHRF 3 boats that were there. I understand that everyone acknowledges they should not be near the line when other fleets start but it's clear they are not aware we are even starting. I'm unsure how this can be resolved but it's becoming an epic problem.

Answer:

Hi Paul, I will address all the fleets of this issue shortly.
Thanks for bringing it up before it boils over!!
