Scoring Inquiry:

With Happy Go having a rating on 1.4786 and Unicorn 1.4040, we finish after Happy Go within 4 minute and before Unicorn, how can it be possible for Unicorn that has to give us time to finish be ahead of us corrected after finishing behind us and how does Happy Go finish before us on corrected if we lost to them less than the time the give to us on rating?

Witnesses:

Full crew of Phoenix

Response:

Tommy Wong & Patrick Pender,

The Race Committee has concluded that the results are correct. This is a technical issue that can be simply resolved by choosing the right "Handicap Type" for IRC results.
