## Scoring Inquiry:

My coach, who is my Dad, and I work as a team. We returned to shore and I got my Opti on it's dolly then I helped him secure his boat because he is on crutches. We walked together to our van so that he could put his leg on and I told him I needed to file a protest. At the van we tried to file the protest but the electronic filing system was not working. We walked together to the office and I stopped at the sign in desk to sign myself in with the volunteers. There was a line of kids in front of me. My coach talked to Mitch and told him that the protest electronic filing was not working and he told us to quickly go in the office so we did not miss the filing time. I told him I still needed to sign myself in and he told me it was ok they would take care of it because they were being helpful and did not want us to miss the filing time. The computer system in the office was also not working so it was very slow to file the protest. I was not even on the list in the office computer so that took extra time. When I came out of the office to thank Mitch they were already gone.

Thank you for helping me resolve this issue.

## Response:

This is a request for redress, forward to the protest committee.
