### Scoring Inquiry:

We kindly request the re-examination of the ToT WRS factors used for calculating the results. For example, when comparing the ORC certificates between the boats ANATELOUSSA AFRODITI and BIDOURIK, for race 2 (Nysiros to Tilos), the ToT WRS factors cannot be derived by any possible combination of the boat velocities (based on race conditions and forecast), derived from the "Rated boat velocities in knots" table on each boat's ORC certificate (i.e. boat ANATELOUSSA AFRODITI appears faster than boat BIDOURIK).

---

### Response:

The TOT factors of your boat for both races are correct, as provided directly by the ORC.
