Scoring Inquiry:

Originally filed 23:02 on 5/31/25 as a Hearing Request - Other (Scoring Inquiry). Chief Judge transferred request to scoring inquiry 07:55 6/1/25

Heron finished leg 1 in 7:53:54. The Kodiak Express finished leg 1 in 7:52:49. This time difference is only 65 seconds. The Kodiak Express has an ORC rating that is faster than Heron yet their corrected times are much different than expected. We are not questioning the elapsed times as they look accurate to us. We are asking if there is some simple typo error that explains the nearly 8 minutes in corrected times. Thank you for looking into this!

Response:

The RC has checked the scoring and done the following standard scoring procedures with regards to ORC certificates after your inquiry was received:

1. We have downloaded the latest certificates from ORC sailor services to our ORC scoring software.
2. We have uploaded the chosen scoring method of the day, ORC Weather Routing Service.
3. We saved and scored the race.

The corrected time was generated using the ORC scoring software and posted directly from the software.

The online score for leg 1 reflects this check.
