Scoring Inquiry:

Hi.

I would like to challenge the finish time of Scenario Encore from last nights Thursday race.

She is down for a finish time of 20.08.27. I estimate she was only 2/3 minutes ahead of Allig8r crossed the finish line and we had a posted finish time of 20.32.20.

This would indicate she finished 24 minutes ahead of us!

Also all the J109 in class 1 crossed the line long before any class 2 boat (with the exception of jump the gun, who finished behind us) and the fastest class 1 boat has a finished time of 20.10.11, which puts Scenario ahead of that boat crossing the line, which is not possible.

I believed Allig8r was close to beating Scenario on corrected time. So was very surprised to see the times posted.

Can this be reviewed please.

Best
