Scoring Inquiry:

On race 2 when the ilca was finishing the opti were starting, blocking the finish line for the ilca and we were not able to finish below which is where we are suppose to finish. I also saw someone on the comm boat pointing on top, telling us to finish on top. However I could not see who pointed but I saw someone directing me to finish on top of the comm boat. Jayden teo saw the opti blocking us and also finished on top. Later on at shore I talked to the RO and he said that since the opti were blocking the finish line, they would take my score as first and jayden teo as second and arrable at third. Arrable got first for that race as she managed to finish below while me and jayden teo could not.

Witnesses:
