### Scoring Inquiry:

Questions: #1, How was race 17 scored? The race was abandoned due to the missing weather mark. Yet scores seem to be included in the series total? Several iterations of the score were posted before the "final" score posting. #2, Spray was OCS but failed to restart. Therefore Spray did not race but received a score on the total. Thank you.

### Response:

Scoring was calculated per SI 12.2 which states "When a race is abandoned for fewer than all classes in a Division, boats in those classes shall be scored average points for that race. Average points will be defined as the average of a boat's best three (3) scores out of the immediately preceding four (4) races, regardless of whether the boat competed in those races." Regarding the OCS for Spray, once the race was abandoned there was no start so no over early.
