Scoring Inquiry:

Folks, In the last two races of series 5, race 3 & 5, at the top level of the results it's correctly reflecting my spinnaker handicap 1.145 in accordance with the registration and announcement at the aft of the committee Boat prior to the race. However in the granularity of the respective race results it's reflecting and using the math of my white sail handicap 1.117. That said, even with the Spinnaker handicap there is no impact on the scoring results, as I was adequately ahead of the behind me. Nevertheless, to ensure the data is calculated correctly for the next races, suggest its update to reflect the correct handicap.

Response:

Thanks for pointing this out. Corrected scores have been posted.
