### Scoring Inquiry:

A boat collided into me from behind and his main sheet got stuck on my life jacket, hence pulling me and my boat forward through no fault of my own. This is what caused me to be given the BFD. Because of this collision, I had to spend much time untangling myself before I could start the race.

### Witnesses:

Would it be possible to check the video recording as I did not take down any sail numbers.

---

### Response:

No scoring change.
