**Scoring Inquiry:**

Hi Guy,

Sorry to bother you with this but there seems to be a glitch in the scoring of d'Adlib. It is extremely unlikely that they finished 10 minutes ahead of Alan Gray in race 2 and eight minutes ahead of them in Race 3. I was on the course and very close to the leaders. Bill was way, way behind in all the races.

Thanks again for your great work with these results and this website.

Best Regards,

Rick

**Response:**

Correct, he was registered in WS start, changes were made but scorer forgot to change the start times in R2 and R3

Changes made and scores reposted
