Scoring Inquiry:

For the BYC annual regatta as I was sailing single handed I registered as White Sail. I flew a white sail banner from my backstay and informed the Signal Boat that I was sailing white sail and got a thumbs up.

The scoring on the GNS shows me in the spinnaker fleet and finishing last. It is correct that I finished last.

But for purposes of scoring the BYC annual regatta it should show the boat in White Sail. Spoiler alert. I also finished last, but in second place!

I know that for the purpose of the GNS races one cannot change one's handicap mid-season, but there is nothing to prevent one from using a different one for an annual regatta (for purpose of GNS scoring it should show DNC and for the annual regatta it should score under white sail).

In the grand scheme of things I don't care about the actual scoring. The prize money is the same.

But for the future we should either find a way to accommodate such a circumstance or have something in the NOR or SI's.

My suggestion is that the host club publish the race results according to the division the boat actually sailed in, but the results that are forwarded to GNS show the boat in its seasonal class as DNS.

Response:

1092's rating has been changed to 0.920 for BYC Annual races 1, 2 and 3.

1092's scores have been changed to DNC for Sailweek races 7,8 and 9.
