Scoring Inquiry:

I was heading for the finish in pos 7 toward the favorite side of the finish line (boat) and on lay line to finish in 7 when a RIB started to tow the finishing boat to the South and this changed the favour from boat to mark. I lost 1 position to GER1661 due to a failure of the RC not to move the finishing line during the finish

Witnesses:

RC team at finishing boat plus RIB driver and photo material send to Stefano.
