Scoring Inquiry:

I got a 2nd place in the 2nd race In Violet fleet, but I believe I finished 1st in that race! I crossed the finish line on starboard, while the other sailor (who got the result 1) crossed on port. I crossed the finish line at the pin end side which was geometrically lower than the right side of the finish. The other sailor crossed at the right side of the finish, which was higher than the pin end (where I crossed the line). Because the left side of the finish was lower and I crossed the line there, I must've finished in front of him, due to the geometrical shift of the finish, and the pin side being lower. Please review my results!
