Course:

Race No.: 2

Posted Score: DNC

Competitor: KiteFoil - NED 89 - Mariska Wildenberg

Scoring Inquiry:

Found out yesterday I got a dnc in race 2, (18th oct) while I definitely finished the race. (Send a form but didnt got anything back) I finished behind a Flysurfer and in front of the Flysurfer was a diablo (number 90 which became 39th). The distance between us was big. At the finishing Line there were to guys floating in the water with the kites down (one around the finishing mark with his kite - he might be the case I am missed in the scoring). The other one just in front of the finishing Line I. I couldn't see the number at that moment. I definitely finished. And didnt checked the numbers around as I also couldn't see the other numbers, because of distance. And the were in the water. In the downwind reach I also got passed by a blue peter lynn which ended 38. I couldn't see anyone behind except the far away an Orange ozone (not sure If it was still competing) . The boy (number 90) with the diablo was sailing back to the boat after finishing (he be came 39th) to ask you something. At that moment I passed by. Instead of dnc the last place, should be more fair.

Response:

Corrected Score: 42
